4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information _____

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information _____

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

SUPPLEMENTAL DATA & RESPONSES

REDACTED - FOR PUBLIC INSPECTION

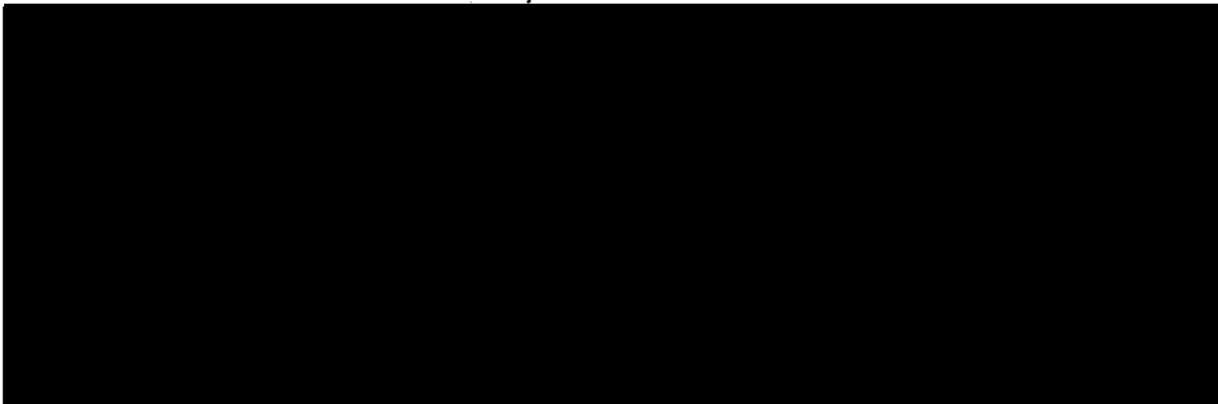

VENUS TELEPHONE COMPANY
FIVE YEAR SERVICE IMPROVEMENT PLAN
JULY 1, 2016 PROGRESS REPORTS

EXECUTIVE SUMMARY

On July 1, 2014, Venus Telephone Company ("Venus" or "the Company") submitted a five-year service improvement plan as required by 47 C.F.R. §54.202(a). Venus operates a single exchange in northwestern Pennsylvania. Consistent with 47 C.F.R. §54.313(a)(1), the Company now submits its first progress report which reflects activities through May 2015.

At the time the five-year service improvement plan was submitted, broadband service was defined as a service with speed of 4 Mbps downstream and 1 Mbps upstream. The FCC's action to change this definition to 10 Mbps downstream and 1 Mbps upstream upon reasonable request was not reflected in the initial plan. This report provides an assessment of the Company's achievements to date in network investment to target the new, higher download speed requirement.

UNIVERSAL SERVICE SUPPORT / INVESTED

SERVICE CERTIFICATION

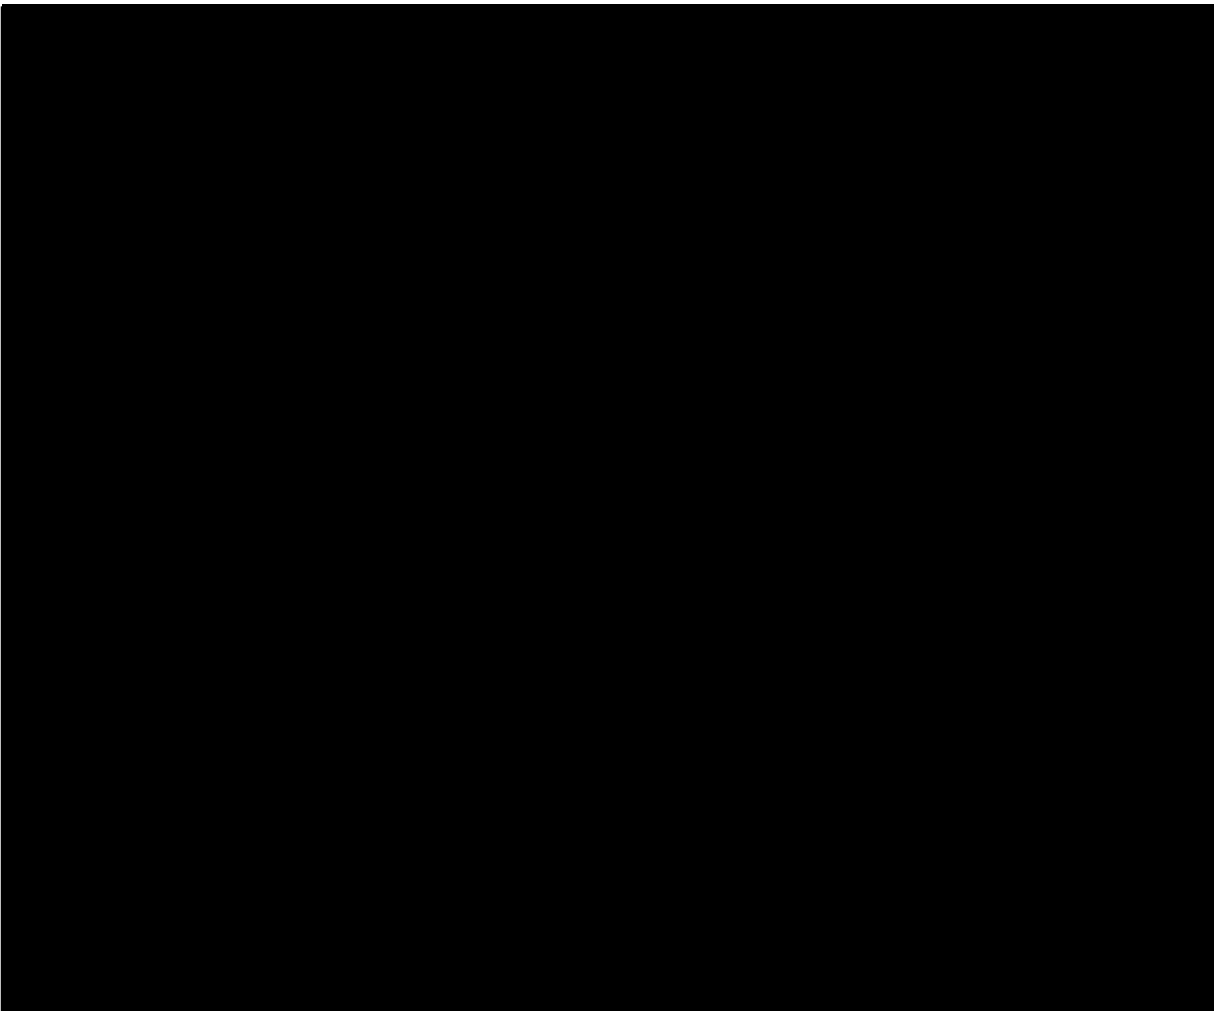

As set forth in 47 C.F.R. § 54.313(f)(1)(i), the Company hereby certifies that it is taking reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1Mbps upstream. This service offers latency suitable for real-time applications, including

¹ Allocation in compliance with reporting requirement addressing how federal USF was used by the Company per 47 C.F.R. § 54.313(A)(1).

Voice over Internet Protocol. Usage capacity is reasonably comparable to comparable offerings in urban areas and that requests for such service are met within a reasonable amount of time.

SERVICE PROGRESS - EXCHANGE MAP

Funds received from the universal service support mechanisms, in combination with all other revenue streams will allow the Company to maintain and upgrade the existing broadband network. In the July 1, 2014 five-year plan, the level of 4/1 broadband availability within Venus was 100%. As a result of significant fiber infrastructure, the Company can presently offer 10 Mbps / 1 Mbps broadband speeds to 100% of its customers. The map below shows the Venus Telephone Company study area exchange boundaries within which broadband is universally available.

RATES AND RATE STABILITY

New customers are provided rate information at the time they order service. The rate information is prepared based on tariffs which are on file with the state public utility commission and available for inspection at our office. In addition rates are available on the company website. Notices of rate changes proposed by the Company are communicated to the customers through a bill notice or other comparable means. The Company complies with all state and federal rules applicable to rate changes.

PROVIDE SPECIFIC DISCLOSURES IN ADVERTISING

In advertising of prices for service plans the Company will disclose material charges and conditions related to the advertised prices and services. This notice will provide the potential customer with , including if applicable and to the extent the advertising medium reasonably allows: (1) whether nonrecurring installation charges would apply; (2) the monthly fee associated with the service; (3) whether any additional taxes, fees or surcharges apply; (3) the terms and conditions related to receiving a product or service for "free;" and (4) whether prices or benefits apply only for a limited time or promotional period and, if so, whether any different fees or charges will apply for the remainder of the contract term.

TRUTH-IN-BILLING

The Company has long maintained compliance with the FCC's Truth-in-Billing rules as set forth in 47 CFR 64.2401. In part, this requires the Company's telephone bill must: (1) be accompanied by a brief, clear, non-misleading plain language description of the service or services rendered; (2) identify the service provider associated with each charge; (3) clearly and conspicuously identify any change in

service provider; (4) contain full and non-misleading descriptions of charges; (5) identify those charges for which failure to pay will not result in disconnection of the customer's basic local service; and (6) provide a toll free number for customers to call in order to lodge a complaint or obtain information.

Customers' bills will distinguish (1) monthly charges for service and features, and other charges collected and retained by the carrier, from (2) taxes, fees and other charges collected by the carrier and remitted to federal state or local governments. The Company will not label cost recovery fees or charges as taxes.

PROVIDE READY ACCESS TO CUSTOMER SERVICE

Customers and potential customers may access customer service by visiting the Company's office or by using a toll-free telephone number during normal business hours. Customer service contact information is available at our business office with regular hours posted on the storefront. In addition, this information is available online and on the monthly invoice rendered by the company.

ABIDE BY POLICIES FOR PROTECTION OF CUSTOMER PRIVACY

The Company complies with all state and federal rules regarding the privacy of customer information. Certification of this compliance is provided annually to the FCC.

RESPONSE TO CONSUMER INQUIRIES AND COMPLAINTS RECEIVED FROM GOVERNMENT AGENCIES

The Company will respond in writing to state or federal administrative agencies within 30 days of receiving written consumer complaints from any such agency. Should the agency require a shorter interval for response, the Company will use its best efforts to expedite the review of the complaint to provide a response which meets the agency-provided target date.

TERMINATION OF SERVICE

The Company follows the state public utility commission's rules for termination of service.

Service cannot be terminated without advance notice to the customer. If service is being terminated for non-payment, the customer will have the option to establish a payment plan. So long as the customer adheres to the payment plan, service will not be disconnected.

Customers may terminate service at any time and for any reason. The Company does not assess any termination penalty and the customer is simply required to pay for the services which were used while the service was provided.

As an initial point, the Company had no service outages during 2015 which met the FCC's threshold for reporting into the Network Outage Reporting System ("NORS").

The Company engages in preventative maintenance programs which help ensure network reliability in all conditions. This includes regular checks on generators, battery back-up, HVAC infrastructure at central office switches, and tree trimming/removal when trees have the potential to take down telephone lines during events of high wind or heavy snow. Access to critical infrastructure (like central office switches) is limited to essential personnel. Spare equipment is maintained in inventory.

Like most local exchange carriers, the Company's network consists of electronic switching equipment and a network of fiber optics and copper facilities. From a switching standpoint, the Company has one primary switch and smaller switches which are fed by the primary switch. These smaller switches are often referred to as intraexchange remote switches or concentrators. The largest threat to switches is the loss of power. To address this, the Company ensures adequate battery back-up is maintained. For emergency situations which extend beyond the useful life of the battery back-up, the Company uses generators to power the switches. These generators are portable which ensures they can be relocated to any switching center based on the specific needs of each switch. In addition, the Company's office will serve as a Command and Control center. This center is included as a primary location to which continuous power is required.

In cases of emergency, the Company's management has contact information for all employees. Depending upon the scope of the emergency, the Company may call-in as many employees as necessary to provide continual telecommunications service. The Company has access to local and regional construction companies which can be called in to supplement the work force if necessary. When poles are down from emergencies, the Company works with other utilities attached to the same poles to expedite the repair or replacement of the infrastructure.

In summation, the Company takes preventative measures to plan for emergency situations and also takes steps to mitigate the risk or duration of such events.

INDEPENDENT ACCOUNTANT'S REPORT

To the Stockholders of
Venus Telephone Corporation
Venus, Pennsylvania

We have reviewed the accompanying prescribed form balance sheets of Venus Telephone Corporation as of December 31, 2014 and 2015, and the related prescribed form statements of income and retained earnings and statements of cash flows for the years then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the 2014 and 2015 financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Other Information

The accompanying special-purpose financial statements were prepared for the purpose of complying with the Federal Communications Commission, and are not intended to be a presentation in conformity with accounting principles generally accepted in the United States of America.
